MANAGEMENT COMMENT

Commenting on the results, Mr. Eitan Livneh, President and CEO of Magal, said, "2013 was a weak year for us, due to sluggish economies in many of our target geographies combined with delays in several projects. However, on the positive side, I am encouraged by the recent strong pick-up in activity. Magal has emerged from the recent global financial crisis with a strong cash position and is in a good position to take advantage of the current economic up-trends. Looking ahead, we have much to be optimistic about."

Continued Mr. Livneh, "Our backlog has grown strongly in recent months, and projects which were delayed in 2013 are now beginning to move ahead. Across all our geographies, we are seeing positive signs of improvement. We are putting significant effort on our cyber security activity and have started to see good traction and initial sales of our CyberSeal products. Finally, we are actively engaged in pursuing synergistic acquisitions and I hope to realize some of the fruits of these efforts in 2014. At this point in time, I am very optimistic based on the many opportunities ahead of us and expect that we will resume our growth as we move forward in 2014."
