**FOR IMMEDIATE RELEASE**

**MAGAL S<sup>3</sup> RECEIVES A US\$ 4.6 MILLION ORDER TO SECURE POWER FACILITIES IN EASTERN EUROPE**

**YAHUD, Israel - June 2<sup>nd</sup>, 2011 -- Magal S<sup>3</sup> Security Systems, Ltd. (NASDAQ: MAGS, TASE: MAGS)** today announced that it has signed a US\$ 4.6 million contract to supply and install intrusion detection systems at 20 power facilities in an Eastern European country. Execution is planned over the next 18 months, the first 10 sites will be implemented immediately and the last 10 sites will be implemented at the customer's notice.

The delivered turnkey solution is based on Magal's leading taut wire product - DTR, which will be integrated with a complementary dual technology sensor and a control unit.

**Eitan Livneh, President and CEO of Magal S<sup>3</sup>, commented:** "This is the third order from this customer for a similar application and it is solid proof of our capabilities in fulfilling and exceeding our customer's expectations. We have been successful in delivering integrated PIDS (Perimeter Intrusion Detection System) solutions specifically tailored to our customers' environmental and operational needs. We expect the market to continue to invest in the physical security of national assets, as part of the overall growth in the global Homeland Security market."

**About Magal S<sup>3</sup>:**

Magal S<sup>3</sup> is a leading international provider of security, safety and site management solutions and products. Over the past 40 years, Magal S<sup>3</sup> has delivered tailor-made solutions to hundreds of satisfied customers in over 80 countries. Magal S<sup>3</sup> offers a broad portfolio of unique products used to protect sensitive installations in some of the world's most demanding locations and harshest climates. This portfolio covers the following three categories:

- **Perimeter Intrusion Detection Systems (PIDS)** - a variety of smart barriers and fences, fence mounted detectors, virtual gates, buried and concealed detection systems;
- **Closed Circuit TV (CCTV)** - a comprehensive management platform with a leading Intelligent Video Analytics (IVA) and Video Motion Detection (VMD) engine;
- **Physical Security Information Management (PSIM)** - a site management open system that enhances command, control and decision making during both routine operations and crisis situations.
