PRESS RELEASE

MAGAL WINS \$13 MILLION IN TWO LARGE ORDERS ONE WITH CYBER SECURITY SWITCHES

YAHUD, Israel – May 13, 2015 - Magal Security Systems, Ltd. (NASDAQ: MAGS) announced today it has recently received two new orders amounting to \$13 million.

The first order is for an integrated security solution for several sites of a national power supplier in Latin America; it includes the integration of hundreds of existing and new cameras, several high-end thermal cameras and smart car and pedestrian gates. The IP network will be managed by CyberSeal's Tungsten™ advanced switches, with built-in cyber security, optimized for security networks.

The second order covers the maintenance and the technical support for a security project, which is already operational in Africa.

Saar Koursh, CEO of Magal S³, commented: "I am proud of these two orders; the Latin American and African regions are both targeted by us for long-term growth. In particular, I am excited by the opportunity to deliver an integrated solution of physical and cyber security, based on our new cyber security product: CyberSeal Tungsten™.

Tungsten™ is optimized for IP based security networks, as well as Industrial Control Systems (ICS). We expect these orders will provide us with solid references for future similar applications."

About Magal S³

Magal S3 is a leading international provider of solutions and products for physical and cyber security, as well as safety and site management. Over the past 42 years, Magal S3 has delivered tailor-made security solutions and turnkey projects to hundreds of satisfied customers in over 80 countries – under some of the most challenging conditions.
