

SENSTAR (SENSTAR TECHNOLOGIES' company) INTRODUCES THE SENSTAR TC200™ THERMAL CAMERA Complements intrusion detection systems and integrates with the Senstar Symphony™ Common Operating Platform to create a powerful perimeter security solution

Birmingham, UNITED KINGDOM (The Security Event) – September 7, 2021 - Senstar, a world leader in perimeter intrusion detection and video management solutions, is pleased to introduce the Senstar TC200 thermal-visible, dual-video detection camera for outdoor site security.

A smart camera that detects intruders with high accuracy and low nuisance alarms, the Senstar TC200 combines the power of thermal detection with the power of visible HD color for reliable 24-hour security. Along with on-board video storage, automatic stabilization, LED illumination, long-range and wide-angle options, and dual-sensor video analytics, the Senstar TC200 helps prevent crime, theft, and business disruptions.

“With outstanding detection performance in a cost-effective package, the Senstar TC200 is an ideal option for protecting fenced-in yards and perimeters, and enabling remote video monitoring applications,” said Director of Product Management Brad Martin. “And, with the ability of the Senstar TC200 to complement intrusion detection sensors and integrate with the Senstar Symphony Common Operating Platform, Senstar can now offer an even more powerful comprehensive perimeter security solution.”

The Senstar TC200 will be available starting October 2021 in these 30 European countries: Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, & United Kingdom.

About Senstar Technologies.

Senstar Technologies (historically known as Magal Security Systems) is a leading international provider of comprehensive physical, video, and access control security products and solutions. Over the past 45 years, Senstar Technologies has delivered its products as well as tailor-made security solutions to hundreds of satisfied customers in over 80 countries under some of the most challenging conditions. On June 30, 2021, Senstar Technologies completed the sale of its project division for approximately \$35 million. Senstar Technologies is now focused entirely on security products, both software and hardware, and product-based solutions, with a highly visible and scalable business model through its Senstar brand.

Senstar is a global leader in innovative perimeter intrusion detection systems (PIDS) and intelligent video management (VMS) with advanced video analytics and access control, offering a comprehensive suite of innovative, intelligent, integrated security technologies. Senstar offers a comprehensive suite of proven, integrated technologies that reduce complexity, improve performance and unify support. Senstar, whose products are found in thousands of sites including critical infrastructure, logistics, corrections and energy, has been protecting high risk assets for more than 40 years. Forward Looking Statements

This press release contains forward-looking statements, which are subject to risks and uncertainties. Such statements are based on assumptions and expectations which may not be realized and are inherently subject to risks and uncertainties, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, financial and otherwise, may differ from the results discussed in the forward-looking statements. A number of these risks and other factors that might cause differences, some of which could be material, along with additional discussion of forward-looking statements, are set forth in the Company's Annual Report on Form 20-F filed with the Securities and Exchange Commission. In addition, there is uncertainty about the impact of the spread of the COVID19 virus and its effect on the Company's operations, the demand for Company's products, global supply chains and economic activity in general.
