

**SENSTAR SYMPHONY™ SENSOR FUSION ENGINE WINS  
SECURITY INDUSTRY ASSOCIATION NEW PRODUCTS & SOLUTIONS AWARD AT ISC WEST  
Senstar Earns Top Prize in Intrusion Detection and Prevention Solutions (Physical) – Wired Category**

**Ramat Gan, Israel – March 28, 2022** – Senstar Corp. a Senstar Technologies' subsidiary and a global provider of video management and perimeter intrusion detection solutions, is pleased to announce its [Senstar Symphony Sensor Fusion Engine](#) has been awarded a Security Industry Association (SIA) New Products & Solutions Award. Senstar's newest ground-breaking technology won in the Intrusion Detection and Prevention Solutions (Physical) – Wired category, recognizing technologies used to detect and/or prevent unauthorized entry into a secure area, indoor or out. The awards were presented Wednesday at ISC West in Las Vegas.

The Senstar Symphony Sensor Fusion Engine is a breakthrough technology that synthesizes data from separate systems to generate actionable information. More than just simple Boolean logic integration, the sensor fusion engine accesses low level data to intelligently characterize potential risks. Data synthesis enables the system to achieve levels of performance that exceed those of individual sensors.

“The Senstar Symphony Sensor Fusion Engine addresses two of the top concerns for perimeter security—reducing nuisance alarms and increasing Probability of detection,” said Senstar Corp. Managing Director Fabien Haubert. “Thank you to SIA for recognizing Senstar’s efforts to advance perimeter security technologies to meet the evolving needs of our customers and partners in the perimeter security industry.”

The Senstar Symphony Sensor Fusion Engine is part of the [The Senstar Symphony™ Common Operating Platform](#) – a modular solution for security management and data intelligence. In addition to being an open, highly scalable video management system with built-in video analytics, it includes full-featured access control and perimeter intrusion detection modules.

[SIA](#) is the leading trade association for global security solution providers, with over 1,100 innovative member companies representing thousands of security leaders and experts who shape the future of the security industry. Since its inception in 1979, SIA's New Products & Solutions (formerly New Product Showcase) has been the security industry's premier product awards program.

**About Senstar Technologies Ltd.**

With innovative perimeter intrusion detection systems (including [fence sensors](#), [buried sensors](#), and [above ground sensors](#)), intelligent [video management](#), [video analytics](#), and [access control](#), Senstar offers a comprehensive suite of proven, integrated solutions that reduce complexity, improve performance and unify support. For 40 years, Senstar has been safeguarding people, places and property for organizations around the world, with a special focus in [utilities](#), [logistics](#), [corrections](#), and [energy](#) markets.
